

Dream Catcher Cardigan

<https://crochetdreamz.com/crochet-cable-scarf-pattern/>

Abbreviations (US Terms)

- ch (chs): chain (chains)
- st (sts): stitch (stitches)
- sc: single crochet
- sl st: slip stitch
- hdc: half double crochet

Finished Measurements

The measurements given below are before adding the tassels.

- Teen to Woman: 6" wide and 70" long

Gauge

8 hdc sts= 4 inches

Materials

- Bernat Softee Chunky, a size 6 super chunky yarn. Color Taupe gray and Natural were used for the sample crochet cable scarves.
 - Teen to Woman size: 270 yards
- An L (8mm) hook.
- Tapestry needle to weave in the ends

Special Stitches

BLO: Work your stitch inserting your hook only into the back loop of the stitch.

Third loop of a st: The third loop is a loop that runs horizontally behind your hdc stitch as shown in the picture below. If you work into the third loop, the 'V' of the stitch gets pushed forward to form a ribbed line on your crochet fabric.

The 3rd loop of a hdc stitch is a horizontal bar found behind the stitch as shown

Triple crochet (tr): YO twice, insert your hook into the next st, and pull up a loop, (YO, pull through 2 loops) 3 times

hdc2tog: It is a decrease worked across 2 sts to join them into one. YO, insert your hook into the next st and pull up a loop, 3 loops on your hook now, YO, insert your hook into the next st and pull up a loop. YO and pull through all the 5 loops on your hook.

Written Pattern

Pattern Notes

- The base of the scarf is first worked with ribbed lines and fake popcorn stitches. The cables are then added between the ribbed lines using chain stitches.
- Any tails left near the edge of the scarf will not have to be woven in as they will blend in with the tassels.
- The scarf pattern is given separately for the smaller sizes and the Teen to Woman's size. The cable pattern is common for all sizes.

Teen to Woman size

- Ch 142. The initial ch is a multiple of 7 + 2.
- Row 1: 1 hdc in 2nd ch from hook and each ch across to end, turn.—— 141 sts

Note: In the next row, the 3rd loop will be in front of your work as seen in pic 2 above.

- Row 2: Ch 1 (does not count as a st here and throughout), 1 hdc in 3rd loop of 1st st and each st across to end, turn.——141 sts

Note: In the next row, you are working regular hdc sts and not into the 3rd loops.

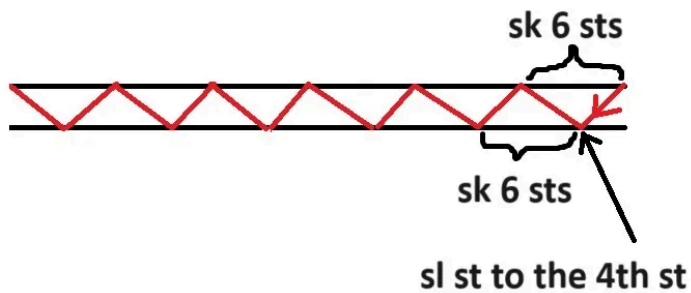

- Row 3: Ch 1, 1 hdc in the 1st st and each st across to end, turn.——141 sts
- Row 4: Ch 1, 1 hdc in 3rd loop of the 1st st and each st across to end, turn.——141 sts

Note: In the next row, if you find it hard to fold the triple to the front and then work a sc, work the sc as usual, and then pull the projection to the front.

- Row 5: Ch 1, 1 sc in the first st, *(1 tr in the next st, fold the tr to the front and 1 sc in the next st), repeat from * to end, fasten off, and do not turn.——141 sts
- Row 6: This row is worked on the same side as Row 5, sl st to the 1st st of Row 5, 1 hdc in the first st and each st across to end, turn.—— 141 sts
- Row 7: Ch 1, 1 hdc in 3rd loop of 1st st and each st across to end, turn.——141 sts
- Row 8: Ch 1, 1 hdc in the 1st st and each st across to end, turn.——141 sts
- Row 9: Ch 1, 1 sc in the 3rd loop of the 1st st and each st across to end, turn.——141 sts

Adding Cables to The Crochet Scarf

First Cable

Start at the base of the first ribbed line and work as shown by the arrow to make the first cable.

Crochet cable taking shape

Take a good look at pics 3 and 4 above before you start making your cables. The cable is worked in a zig-zag shape between 2 ribbed lines formed by working in the third loops.

Sl st to the base of the first ribbed line near the edge, ch 3, sl st to the 4th st on the second ribbed line, *ch 3, sl st to the 7th st (counted from the previous sl st made on the same ribbed line) on the first ribbed line, ch 3, sl st to the 7th st on the second ribbed line) repeat from * until just 3 visible sts are left on the second ribbed line, ch 3 and sl to the last st of the first ribbed line. Cut the yarn leaving a 9" tail, and pull the tail out.

Second Cable

Rotate your scarf and work the second cable along the next long edge exactly like you worked your first cable. Cut the yarn leaving a 9" tail, and pull the tail out.

Adding Tassels to the Crochet Cable Scarf

Note: Before adding the tassels, use the tapestry needle to pull the yarn tails left by the cables to the back side, make a knot to secure it, and bring it out through the edge. We can later blend it in with the tassels.

I used a small book to make my tassel. You can also use a thick 5.75-inch wide cardboard to make your tassels.

Wrap the yarn multiple times around a small book or your cardboard. Cut along one side to get multiple strands of the same length.

Take one strand, fold at the middle of the strand, pull through the edge of the crochet scarf to form a loop, grab the 2 ends with your hook, and pull through the loop, if you find any stray single strand of yarn nearby, pull it through the loop as well. Now tug gently to tighten the loop.

Take care not to add too many tassels or your scarf will widen out at the edges. Add just enough to cover the edge.

Finishing

- Weave in any remaining tails on the back side of the crochet cable scarf.
- Lay the scarf flat, run your fingers through the tassels, and trim the edges to level it.
